Engineer-In-Chief
I&PH Department,

Consumer interface to apply online for water connections

Submission of Application

- The consumer shall submit application on the format available online through the IPH Department website i.e. <http://hpiiph.org/> → <http://admis.hp.nic.in/iph/>
- All columns of application should be filled with required details and submitted online through the portal. Necessary supporting documents shall also be uploaded.

Processing and approval of the application

- On receipt the Assistant Engineer scrutinizes the application. If the application is found to be in order, he will forward the same to the concerned Junior Engineer through computerized system for inspection/ verification of details at site.
- The Junior Engineer conducts the inspection/ verification on the scheduled date and then uploads the inspection report / site map with his recommendation to the Assistant Engineer online.
- The Assistant Engineer then reviews the submitted details by the Junior Engineer along with the submitted application.
- Thereafter he conveys his approval or rejection to the consumer online.
- The applicant deposits requisite fee through the online payment gateway after approval of connection.
- Actual connection is provided to the consumer at site.

Check list of document to be submitted with the application

- The check list of document required for new water connection is available on Departmental website <http://hpiiph.org/> → <http://admis.hp.nic.in/iph/> → Apply online (water connection)
